

## HUFF ELEMENTARY AFTER SCHOOL TENNIS PROVIDER

Benchmark Tennis, a non-profit organization, was founded with the purpose of providing tennis instruction to the youngest Kindergartener to the seasoned high school player. We focus on building a relationship between the child, parent and coach throughout the development process. We refer to this as the "Tennis Bond". Our coaches are professionally trained and certified by the USPTA and PTR tennis organizations, who have consistent standards for proper tennis teaching progressions. We believe that we must provide a strong message to the young players and tennis community by insisting on practicing the tennis pledge and fulfilling its message.

**The Pledge:** Mom and Dad, Thank You for letting me play tennis, I know it is a privilege, What can I do for you!

We provide instruction at several different levels which allows for each player to be able to begin, continue, and excel based on their own ability and skill level. Ten and Under Tennis programs have changed the way tennis is played and taught today.
